OUR FOUNDERS

HOW TATNUCK CC CAME TO BE...

Founded in 1898 by 26 men, many of which were members of the Quinsigamond Boat Club, Tatnuck Country Club was one of the first 100 golf clubs established in the United States. Our 9 hole course was designed by the legendary Donald Ross (pictured on the right).

Donald Ross is a highly influential golf course architect known for designing iconic and challenging courses across the United States.

With over 400 courses to his credit, his designs often blend natural features with strategic elements, creating memorable playing experiences.

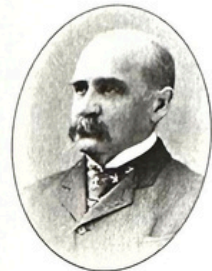

Many of his courses have hosted major championships, and his design philosophy continues to shape golf course architecture today. Ross's legacy extends beyond his designs, as his writings and teachings have also contributed significantly to the understanding and appreciation of golf course architecture.
